EDUCATION

Computer Science
University of Connecticut

2024 – present | Storrs

Taking classes on Data Structures and Algorithms, and Python Development.

Computer Science
CT State Community College

2022 – 2024 | Manchester

Took classes covering Java development, Discrete Mathematics, SQL, MongoDB, HTML, CSS, Tailwind, and JavaScript. Graduated on deans list.

SKILLS

Languages
Java, JavaScript, TypeScript, Python

Web Technologys
HTML, CSS, React, NodeJs, NextJs, MongoDB, Redux, APIs, Tailwind

PROJECTS

AI Article Summarizer

Developed an AI Article Summarizer that processes articles and returns concise summaries using a Summarizer API from RapidAPI. Implemented with React, Vite, Redux, and Tailwind CSS for a responsive and efficient user experience.

Video Meeting App

Developed a fully responsive and scalable video meeting application using Next.js, TypeScript, Tailwind CSS, Clerk, Stream, and Shadcn. Enabled users to create, join, and schedule meetings with ease. Ensured a seamless experience across all devices and maintained high performance for its user base.

PROFESSIONAL EXPERIENCE

Freelance Web Developer   2024 – present

Worked as a freelance web developer, creating custom websites for family, friends, and small businesses. Delivered user-friendly and responsive websites tailored to client's specific needs, utilizing modern web technologies and ensuring high-quality results.
